SUMMARY

Passionate web developer skilled in the MERN stack, with hands-on experience from a three-month internship. Currently pursuing an MCA, I build dynamic React apps with reusable components, responsive designs, and seamless navigation using Tailwind CSS and React Router. Projects include a country showcase app and an interactive Discover page. Eager to solve challenges and enhance user experiences.

work experience

Intern, Boostr Netwave, Bhubaneswar   **March 2024 - May 2024**

- Gained experience with *HTML, CSS, JavaScript, React.js, Node.js* procedures and systems, enhancing my web development and problem-solving skills.
- Managed task coordination such as web design, coding, and client communication simultaneously, ensuring timely completion through effective prioritization and resource allocation.
- During my internship at Boostr Netwave, I independently designed and implemented a responsive web page which improved user engagement by 20%.
- I proactively organized and managed multiple tasks simultaneously, which improved my time management skills and led to the successful completion of projects.
